-

PROFESSIONAL EXPERIENCE

CCTV Draftsmen

Multi Media Security Services | Muaither, Qatar

February 2022 – January 2023

CCTV Draftsman – Key Responsibilities

- Prepare CCTV shop, installation, and as-built drawings using AutoCAD.
- Design camera layouts, coverage areas, viewing angles, and mounting details.
- Prepare cable routing, containment, riser, schematic, and single-line diagrams.
- Coordinate CCTV layouts with architectural, electrical, and other ELV systems.
- Check camera locations, cable routes, equipment rooms, and NVR/server rack layouts.
- Revise drawings based on consultant/client comments and maintain drawing revisions.
- Prepare drawings as per project specifications, approved design, and site conditions.
- Coordinate with site engineers to resolve installation and drawing issues.

Key Achievements

- Delivered accurate CCTV shop and as-built drawings within project deadlines.
 - Optimized camera locations to achieve better coverage and minimum blind spots.
 - Reduced site clashes and rework through effective ELV coordination.
 - Achieved faster consultant approvals through accurate and well-coordinated drawings.
 - Provided clear drawings that supported smooth and efficient CCTV installation.
-

ELV Draftsmen

Almana security services | Doha, Qatar

January 2023– Present

Key Responsibilities

- Prepare ELV shop, installation, coordination, and as-built drawings using AutoCAD.
- Develop layouts for CCTV, Access Control, Structured Cabling, SMATV, PA, Intercom, and other ELV systems.
- Prepare cable routing, containment, riser, schematic, and equipment layout drawings.
- Coordinate ELV drawings with architectural, electrical, mechanical, and civil disciplines.
- Revise drawings based on consultant/client comments and site requirements.
- Ensure drawings comply with project specifications, approved designs, and standards.

Key Achievements

- Delivered accurate ELV shop and as-built drawings within project deadlines.
- Reduced site clashes and rework through effective multidiscipline coordination.
- Improved drawing quality and consultant approval time through accurate layouts and detailed documentation.
- Successfully supported site teams with clear installation drawings and technical clarifications.

Project Description

Ritz-Carlton, Al Messila, Sheraton, and Sharq Village & Spa – Doha, Qatar

- Responsible for the preparation and management of CCTV shop drawings, installation drawings, coordination drawings, and as-built drawings for major hospitality projects. Prepared detailed camera layouts, coverage plans, cable routing, equipment locations, and installation details. Managed CCTV camera closure and suspension activities, coordinated with site teams and consultants, and updated drawings according to site conditions and project requirements. Regularly prepared and uploaded DSA and DIA documentation through the MOI portal, ensuring proper submission, tracking, and compliance with project and authority requirements.
